E-mail: LapinAndrey@inbox.ru

Since 2016 recycling has undergone significant changes. Now it applies to not only the vehicles (cars, trucks, etc.), But also trailers, self-propelled machines. Regulatory fixed size does not correspond to the costs associated with the disposal of vehicles withdrawn from exploitation. Necessary scientific substantiation sizes utilization fee for vehicles, self-propelled machines and trailers produced on the territory of the Russian Federation and abroad. The main scientific contribution of the author - a

scientific substantiation of the forecast sharp rise in price of a number of types of vehicles, which will lead to a decrease in production performance vehicles, construction, agricultural and forestry companies, to a slower renewal of fleet companies and specialized equipment, to a further loss of competitiveness of Russian companies.

*Key words:* recycling collection, the vehicle, self-propelled vehicles, the Federal tax service, the Federal customs service, environmental safety, payment of utilization fee.

### **STRENGTHEN GUARANTEES OF PROTECTION PROPERTY RIGHTS AND INTERESTS OF CITIZENS IN THE RUSSIAN INSURANCE LAW**

© 2016 Shiminova Margarita Iakovlevna

Doctor of legal Sciences, Professor of Department of Private International and Civil Law  
Moscow state Institute of international relations (University) of the MFA of Russia  
76, prospect Vernadskogo, Moscow, 119454, Russia  
E-mail: elena-mikhaylovna@ya.ru

One of the problems of the theory of insurance, representing value from the point of view of its further development is the relationship between mandatory and voluntary forms. Contrary to predictions about the decline in conditions of market economy the role of compulsory insurance, its scope is expanding. Important for the protection of property rights and interests of citizens is the introduction of compulsory insurance of civil liability of the carrier for causing harm to life, health and property of passengers.

*Key words:* compulsory insurance of civil liability of the carrier, the insurer, especially insurance rate, guarantee system of compensation payments, legitimate penalty.

**ECONOMY. ECONOMIC SCIENCE**

---

**ECONOMIC THEORY****TO HARMONIZE THE INTERESTS OF PRODUCERS AND CONSUMERS IN THE FOOD**

© 2016 Charyeva Marala Odgarovna

Doctor of Economics

Russian Academy of National Economy and Public Administration under the President of the  
Russian Federation

82-1, prospect Vernadskogo, Moscow, 119571, Russia

E-mail: oet2004@ya.ru

Market reforms Russia has significantly complicated the problem of coordination of interests even in the same vector of public production - catering. The inconsistency of interests is varied and requires harmonization. Harmonization of interests of market participants requires an organic unity, coherence and balance, for a single direction of economic behaviour through the competition, ensuring economic efficiency.

*Key words:* approximation, economic interests of market participants, business models.

**ASSESSMENT OF THE INTERACTION LEVEL OF SUBJECTS OF REGIONAL INNOVATIVE SYSTEM ON THE BASIS OF AN INTEGRATED APPROACH**

© 2016 Rodionova Natalia Dmitrievna

PhD in Economics, Associate Professor at the Department of Economic Theory

Rostov State University of Economics (RINH)

69, Bolshaia Sadovaia str., Rostov-on-Don, 344002, Russia

E-mail: zontik-slonik@mail.ru

The article provides the method of calculation of the index of development of interaction of the subjects of the regional innovative system, which involves determining the partial indices as the arithmetic mean value considering them to be its essential components. This method allows grouping the regions into separate subgroups and identifying the level of interaction between the subjects of the regional innovation system.

*Key words:* regional innovative system, entities network interaction, level of interaction, the system of quality assessment indicators of regional economy.

**THEORETICAL APPROACHES TO THE STUDY OF INNOVATION AND FORMATION  
OF INNOVATION ACTIVITY OF ORGANIZATIONS**

© 2016 Golovko Olga Igorevna  
Samara State University of Economics  
141, Soviet Army str., Samara, 443090, Russia  
E-mail: rust1978@mail.ru

This article provides the definitions of the theoretical foundations of innovation and innovative activities, since the main task of the modern socio-economic development of the country is to bring it to an innovative path and to maximize the exploitation of innovative technologies. Emphasis is placed on intensification of innovation activities, primarily at the level of organizations. Innovative development of organizations is possible only on the basis of activation of innovative processes, the introduction of modern technologies, high-tech industries that meet or exceed world levels. Solving these problems is impossible without innovation, both from the enterprise and the state.

*Key words:* innovations, innovative development, activation of innovative activity, models of innovation.

**REGIONAL ASPECTS OF FINANCE AND INVESTMENT IN BUILDING COMPLEXES  
ON THE SUB-NATIONAL LEVEL**

The author presents a model of the organization of risk identification, based on the principles of the process approach and the requirements of international standard ISO 9001: 2015. The proposed approach allows to determine the causes and possible consequences of the risks affecting the general economic situation in the organization.

*Key words:* risk identification, risk management, ISO 9001, process.
